BEFORE CARE, HEALING PROCESS AND AFTERCARE

At Locks and Lashes we value the importance of preparing our clients for their upcoming permanent cosmetic procedure, from the days prior to the procedure to the end of the healing process. It is important for us professionals and experienced cosmetic microblading artists to provide you with complete information as this may ease anxiety before your upcoming procedure. The sharing of information also allows our clients to book their procedure around vacations and or treatments.

Eyebrow Before-Care:

- Do not work out the day of the procedure.
- Do not tan or have a sunburned face.
- Do not take Aspirin, Niacin, Vitamin E or Ibuprofen 24 hours before the procedure.
- Do not consume alcohol or caffeine the day of the procedure.
- Do not wax or tint 3 days prior to the procedure.
- PLEASE NOTE: you will be more sensitive during your menstrual cycle.

Eyebrow Aftercare:

- Pat the area with paper towel dipped in sterile water twice an hour for 3 hours then every hour until bed time. Let the eyebrows dry heal from that time onwards.
- Do not apply any cleansers, makeup or any other products on the treated area for 10 days.
- DO NOT rub, pick, exfoliate or scratch the treated area. Let any scabbing or dry skin naturally fall off naturally as picking can cause scarring.
- Avoid direct sun exposure or sun tanning for up to 3-4 weeks after procedure.
- Avoid heavy sweating for the first 10 days.
- NO facials, Botox, chemical treatments and microdermabrasion for 4 weeks. You should mention your microblading to SPA personnel before any facial treatment.
- Avoid sleeping on your face for the first 10 days.
- PLEASE NOTE: For the first 7-10 days, your eyebrows will appear darker and bolder due to scabbing until healed. This is very common for all permanent cosmetic procedures.
- Your perfecting appointment must be scheduled between the 6 to 8 week mark. Failure to do so may affect the complete outcome of your new eyebrows and additional charges will be applied to your perfecting or touch up appointment.
